

# If You Struggle With A Substance Use Disorder, We Can Help.

The Case Management program serves individuals across nine Pennsylvania counties who are experiencing problems related to drugs and/or alcohol.

We take a person-centered approach, which means the assistance we provide, and everything we do, is centered around **YOU**.

## How Do I Get Started?

Visit [casemanagementPA.com](http://casemanagementPA.com) to find the contact information for the Case Management department in your county.

## Case Management Offices:

- Armstrong County
- Butler County
- Crawford County
- Indiana County
- Lawrence County
- Mercer County
- Venango County
- Washington County
- Westmoreland County

If you live in Pennsylvania but your county isn't listed, please visit [www.ddap.pa.gov](http://www.ddap.pa.gov) for information on other agencies that can help you on your path to recovery.

## How Can The Case Management Program Help?

The Case Management program is designed for people in the recovery process who need help and support in the following areas:

- Basic Needs
- Childcare
- Educational/Vocational
- Employment
- Family/Social Issues
- Housing
- Legal
- Life Skills
- Mental and/or Physical Health
- Transportation
- Recovery Support Services

## What Does A Case Manager Do?

Simply put, our caring, compassionate, and knowledgeable Case Managers help you in your recovery process by evaluating your strengths and needs, helping you to set goals, linking you to services, advocating for your rights and coaching you as you work toward achieving your goals.

Any communication between you and your Case Manager will be treated in a **CONFIDENTIAL** manner.

## How Much Does The Program Cost?

Case Management services are provided **FREE OF CHARGE**.
